PROJECT **RISIPY**

Risipy is a revolutionary food app designed to make ordering and enjoying delicious meals more convenient than ever before. With Risipy, you can browse a wide selection of local restaurants and eateries, view their menus, and place orders for delivery or pickup, all from the comfort of your own device.

One of the key features of Risipy is its intuitive and user-friendly interface. With its simple navigation and clean design, you can quickly and easily find the dishes you're craving and place your order in just a few taps. You can also save your favorite restaurants and dishes for future orders, making the process even faster and more convenient.

CLIENT **NOVARISE**

COMPANY

YTECH is dedicated to helping businesses harness the power of technology to achieve their goals and stay ahead of the competition. This collaborative approach allows us to develop customized solutions that are specifically tailored to each client's unique requirements.
